

High performance

- Mechanical stability 2008.
- European Technical Agreement (ETA-07/0308)

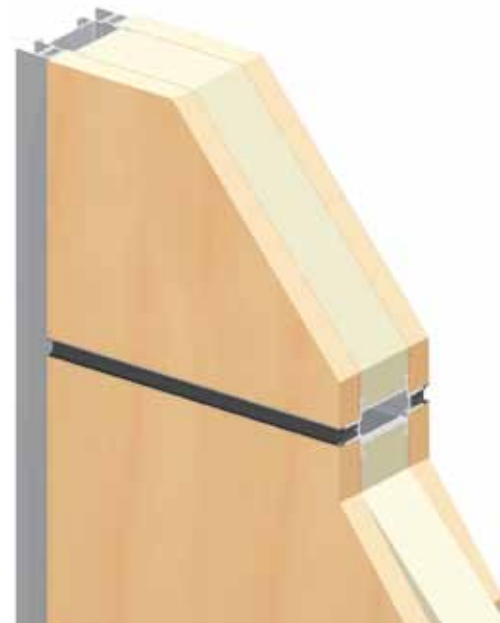

Adaptable and customized solutions

- A versatile structure for constructing partitions with wood or glass panels joined by conventional aluminium trims or a hollow gasket system.

• Usual partition with aluminium trim

• Partition with hollow gasket

OPALE

PARTITION SYSTEM

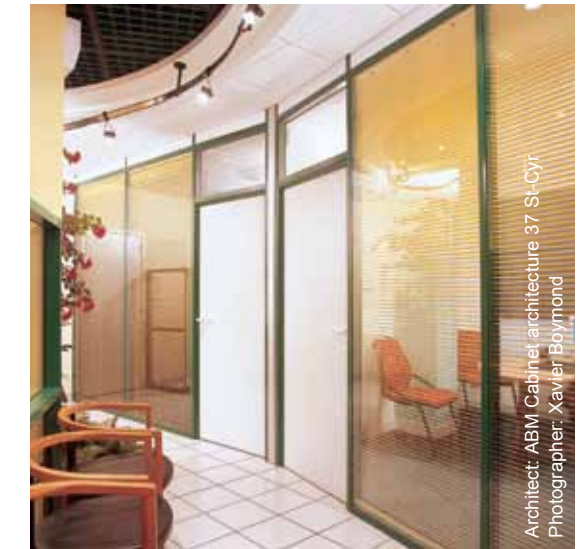

- Partition with U rail.
- Partition with narrow rail.
- Partition with hollow gasket system.

TECHNAL is a Hydro Brand

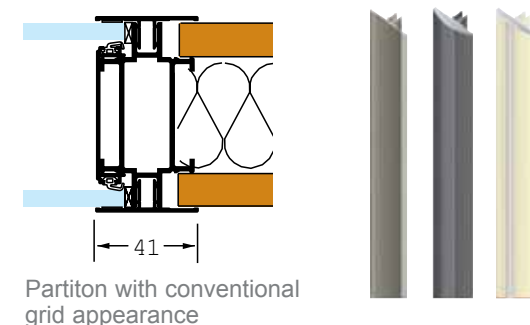

Partitions

Conventional junction with aluminium trim system

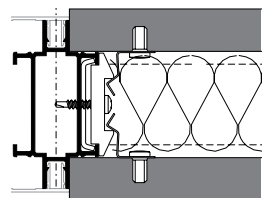

- Customized solutions allowing vertical or horizontal lines to be emphasized using different trim sections.
- Simplicity and high performance:
 - acoustic attenuation of **44 dB**,
 - **CERFF certification n°C.07.412.**

Junction with hollow gasket

(Technal patent)

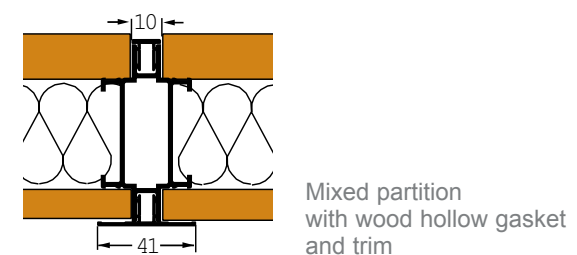

- Flush wood or glass panels.
- Mixed partition using trims and hollow gaskets.

Wood-glass panels joined by hollow gasket

Mixed system

Integration

- Plinth, transom and mullion integrating electrical wiring.
- Manual or power-operated blind.

Plinth

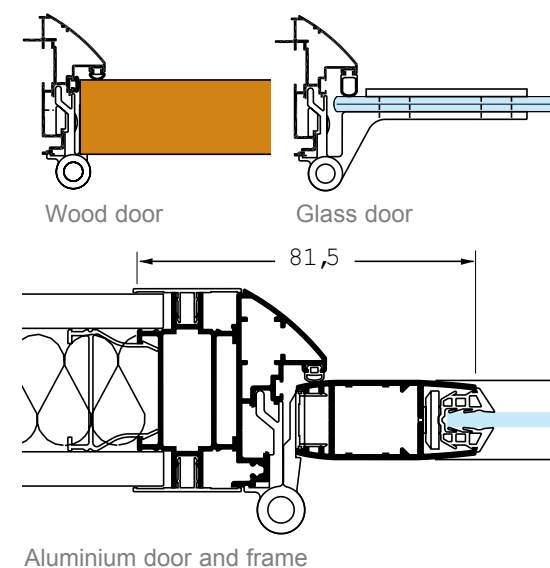

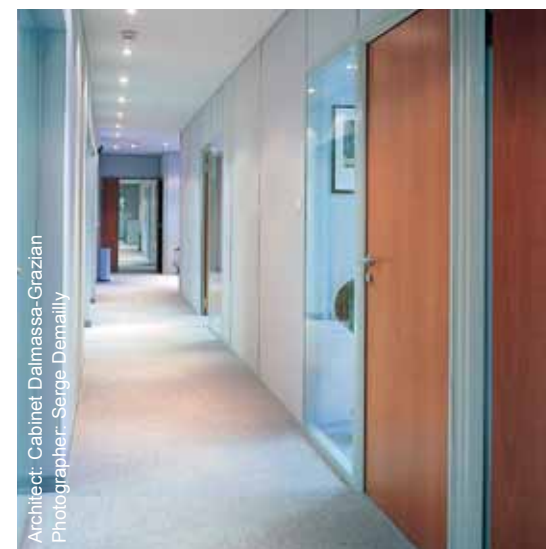

Blind

Doors

Side-hung door

- Same outer frame for all doors.
- Range of ergonomic hinges and handles.
- Different sets for door ready to assemble.

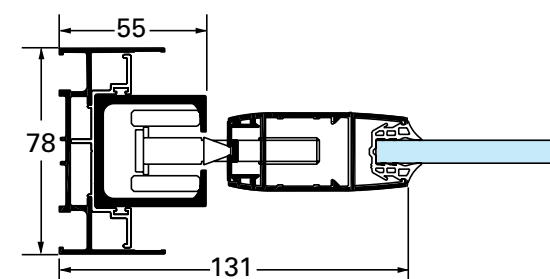

Full-access sliding retractable door

- Opens completely, no rail in ground.
- Accommodates glass or wood infill.

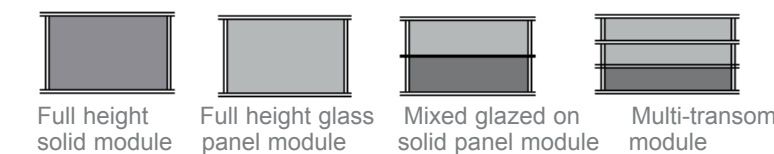

Attractive, high performance

- Leaves up to 3 m high and 1.2 m wide.
- 100 kg max. per leaf.
- Provides full access.
- Easy-to-manoeuvre pull handle and optional lock.
